I'm an experienced Drupal backend developer with 8+ yrs of experience in site building, maintenance and hosting. Driven to provide excellent service and high-quality coding to create secure and functional sites for clients. Expert in Drupal and up-to-date on the latest developments and versions. Managed several projects for large corporate clients and the government sector using Drupal 8 and 9, including full Drupal deployment services. Learned the out of the box techniques like Docker, vagrant, ReactJs, and Mobile APIs. Also, passionate about Drupal Community Contributions.
